CRINUMS

ASIATICUM

Another of the larger sorts, forming a magnificent rosette of dark green leaves and bearing almost constantly large clusters of fragrant white flowers.

Small bulbs \$1.00; large bulbs \$3.00

CAMPANULATAM

A strong-growing plant with wavy-margined, strap-

shaped leaves and throwing up scapes on which are borne from ten to twelve lovely bell-shaped flowers, white-striped, dark pink, 3 inches across, and petals strongly recurved. Small bulbs .75; large bulbs \$1.00

J. C. HARVEY

A fine, vigorous hybrid (C. moorei X C. kirki) ever-green, partaking in habit almost equally of both parents. Flowers rose-pink, exceedingly fragrant, very floriferous and of good substance, a single bulb often producing three flower stalks in one season.

Small bulbs .75; large bulbs \$1.00

GIGANTEUM

One of the most beautiful of the Grinumms. Foliage erect, very handsome, rich deep green, with a bluish tint; flowers large, pure white when open, creamy white in bud. Has a decided vanilla-like fragrance.

Small bulbs .50; large bulbs \$1.00

KIRKII

The flowers are large, white, with a reddish purple stripe on the outside of each petal which, showing through, gives the flower a pink tinge on the inside; some ten or fifteen of these flowers are produced at the top of a tall purple spike, and there are frequently two or more spikes of bloom from the bulb during the season.

Small bulbs .50; large bulbs .75

KUNTHIANUM

Vigorous-growing and abundant bloomer from New Granada. This is a grand species, with splendid flowers, dull white tinged with rose-red.

Small bulbs .50; large bulbs .75

LONGIFOLIUM

One of the hardiest of the species, enduring even the winters of the Middle States if protected with litter. The large umbels of fragrant white flowers are faintly tinted pink.

Small bulbs .50; large bulbs \$1.00

MRS. ELLEN BOSANQUET

This new Crinum, originated by Mr. Alfred Bosanquet, of Fruitland Park, is by far the loveliest of the lot, and an entirely new departure in the color-line. The blooms are large, cup-shaped and of a deep glowing rose, fading very little as the flower ages.

Small bulbs .50 and \$1.00; large bulbs \$1.75

SANDERIANUM

A strong grower, not particular as to soil. Flowers are in small umbels, large and showy, striped white and carmine, 3 to 4 inches in diameter.

Small bulbs .25; large bulbs .35

SCABRUM

Flowers dull white, tinged with rosy red. Leaves light green, spreading, with wavy edges.

Small bulbs .50; large bulbs .75

VIRGINICUM

A choice hybrid originated in England. Flowers very large and widely opened, white and rosy pink.

Small bulbs .35; large bulbs .50

DIETES

BICOLOR

A very distinct species with large green foliage and light yellow flowers marked in the center of the falls with dark, velvety brown-purple. Blooms all summer. .75

CONTRAST

Contrast is descriptive of the coloring of its well rounded flowers with standards and falls of pure cream heavily and boldly marked deep brownish orange in the center of the falls and the style branches making a triangle of dark purple in the center of the flower. .75

LEMON DROPS

The flower is large and well proportioned, creamy white in color of the petals with large markings of lemon

yellow on the center of the falls.

\$1.00

IRIDIODES JOHNSONI

A robust growing plant which soon forms large clumps. The flowers are 4 inches across, purest white with lavender and orange markings. It blooms frequently. .50
